Objective

A Computer Science graduate currently pursuing MCA at Pondicherry University, with a strong foundation in programming, data structures, and machine learning. Eager to leverage my skills in C++, Java, JavaScript, Python, and DSA to contribute effectively to innovative software and data-driven solutions through strong technical and problem-solving abilities.

Education

Pondicherry University — Puducherry, India
Master of Computer Applications (MCA)
- *CGPA: 8.78/10 (1st Year, 1st Sem)* — *2025 – Present*

Rajendra University — Balangir, Odisha
B.Sc. in Computer Science
- *CGPA: 7.17/10* — *Year of Passing: 2024*

Projects

- **OTT Customer Churn Prediction & Automated Retention System**
  - Built an end-to-end ML pipeline to predict churn for an OTT platform using a dataset of 5,000 customers.
  - Engineered features from watch time, login frequency, subscription plan, device type, and last-login recency.
  - Trained and benchmarked Logistic Regression, Decision Tree, and Random Forest models; achieved 92% accuracy.
  - Developed an automated SMTP-based email retention system to trigger personalized 20%-discount offers to predicted churners.

  Technologies: Python, Scikit-learn, XGBoost, Pandas, Matplotlib, Seaborn, Joblib
- **Capital Motors – Automotive Service Website**
  - Designed and developed a fully responsive business website for an automotive service and repair workshop.
  - Built sections for services (vehicle servicing, engine repairs, brake/suspension, electrical diagnostics), customer reviews, location map, and contact/booking.
  - Implemented a fixed responsive navigation header with hamburger menu for mobile devices.
  - Used Google Fonts (Inter, Poppins) and Font Awesome icons for a professional, modern UI.

  Technologies: HTML5, CSS3, JavaScript, Font Awesome, Google Fonts
- **College Website Development**
  - Collaborated with a team to design and develop a fully functional college website from scratch.
  - Implemented student registration, course management, event updates, and an admin dashboard.
  - Ensured user-friendly navigation and responsive design across all device sizes.

  Technologies: HTML, CSS, JavaScript, React (basic), PHP, MySQL

Technical Skills

Languages: C, C++, Java, JavaScript
Web Development: HTML5, CSS3, JavaScript, React (basic)
Data Science & ML: Python, Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib, Seaborn
Tools & Platforms: Git, GitHub, Streamlit, Jupyter Notebook, VS Code
Databases: MySQL
Core Concepts: Data Structures & Algorithms, OOP, Machine Learning

Achievements & Extras

- **Soft Skills**: Teamwork, Communication, Problem-solving
- **Languages Known**: English, Hindi, Odia
- **Hobbies**: Sports, Gaming
